			Evidence & Impact	Sustainability/ Suggested Next Steps
Engagement of all pupils in regular physical activity.	Provision of extra-curricular sports clubs	£100	A table tennis club was delivered successfully using the budget. The children have enjoyed this activity. PV - "It's great fun and I'm getting better skills at getting the ball on the table"	We have the equipment to continue.
	Provision of swimming sessions and extra term top-up for Y4.	£2000	90% of children met the national standard this year. Children have increased safety around water. PV - "I love swimming and it's a good life skill"	This will need to continue next year. We may have to ask parents to contribute more.
	Provision of EYFS physical development resources to encourage regular physical activity. Replenish / renew existing equipment	£1600	EYFS have made strong progress in fine and gross motor skills.	Reduced funding next year, so funding offer will be made but at a much reduced amount
	Provision of appropriate sporting equipment and resources to enable effective delivery of PE curriculum lessons.	£3400	Replaced what was needed to ensure children have equipment they need to engage in good quality lesson

The profile of PE and sport is raised across the school as a tool for whole-school improvement.	Continue sport leaders training and prompt sport and physical activity within school – training materials & resources.	No cost.	This year children have been refereeing football at break and lunch time to ensure fair play. This has worked well. PV - "It's fun being the referee." "The referee makes sure everyone plays by the rules."	Continue this next year and move into other activities that are put out at lunch time such as the netball, hockey, playground games.
	Funded time out of class for PE subject leader to work on required areas of PE subject leadership Develop provision / broaden coverage Attend leadership/ network meeting, with the aim of raising the profile of PE and school sport.	£500	Time out for organising tournaments has been very useful. It has also given me time to gather pupil voice opinions. There have unfortunately not been any network meetings for P.E.	This should continue next year. Suggest to the academy.
	Celebration of PE/sport (curriculum lessons, clubs, competitions, out-of-school achievements) through school newsletters,	No cost.	We have celebrated our children's achievement.

Curriculum: Increased confidence, knowledge and skills of all staff in teaching PE and sport.	Sports coaches for teaching of PE weekly- CPD for staff working alongside qualified sports coaches	£7400	Staff training took place in the form of shadowing the expert coaches. Expert teaching in all areas of sport from qualified professional sport teacher / coaches. Quality of teaching has improved this year since the new company started. Lesson are well structured and carefully planned. Staff benefit from working alongside specialists.	Due to the withdrawal of the Sports Premium funding we can no longer afford to re-employ this company. Teaching staff will now teach all P.E.
	Bika-ability cycle training	£750	High quality teaching helps to keep our children safe when they go for rides in their spare time. PV - “This was amazing and keeps me safe out on the road”	This will take place again next year. We may have to ask parents to pay more.
Broader experience of a range of sports and physical activities offered to all pupils.	‘New experience’ taster sessions/days.	£1000- Not used	We had more after-school clubs such as netball and table tennis but these were organised by school staff.	Next year, more sports enrichment opportunities will be provided inline with our enrichment strategy.

			Evidence & Impact	Sustainability/ Suggested Next Steps
Increased participation in competitive sport.	Employment of a Competitions Manager (Andy Jackson) to work with the Small school cluster of schools to implement a competition calendar and run sport competitions.	£1500	Andy Jackson has offered a valuable competition based festival programme where children go in small groups for a wide variety of competitive but friendly sports opportunities with other smaller primary schools in our area. Attendance - This year 88% of children from Y1 to Y6 have had a go at one or more of these competitions. 62 children went to the cross country event. PV - “I went to the football tournament it was brilliant and we played 4 games and came 2nd”	This is a cost effective investment and very worthwhile. Despite the reduced funding next year we will rejoin the cluster events.
	Funding for coach travel (and possible supply cover) to transport pupils to competitions and sporting events.	£500	We funded the coach to the cross country event as there are always about 60 children who want to attend. Other event parents take their own children which therefore has no cost impact for travel.	If finances allow we will fund the coach again, otherwise we will have to charge parents.
